The new BA Pumps & Sprayers LM Linkage Sprayer with M Boom signifies a shift towards a more efficient, safer, and productive spraying solution for farmers. This innovative product, allows you to cover more ground per fill with complete control from the tractor seat.

THE LM SPRAY TANK FEATURES:

The LM Series introduces a unique tank shape with in-built flush and hand wash tanks featured on all models plus so much more. Available in 900 and 1150 Litre tank sizes.

Moulded tank calibration strip, with sight glass level indicator for clear visibility while operating.

900L and 1150L T-Shape Tank: Protects working surfaces from mud and debris, whilst keeping weight forward.

Ergonomic Operator Station: Product loading made easy with a built-in induction hopper.

Pressure Gauge: Fitted on the cab side of the tank so you can check the pressure from the tractor.

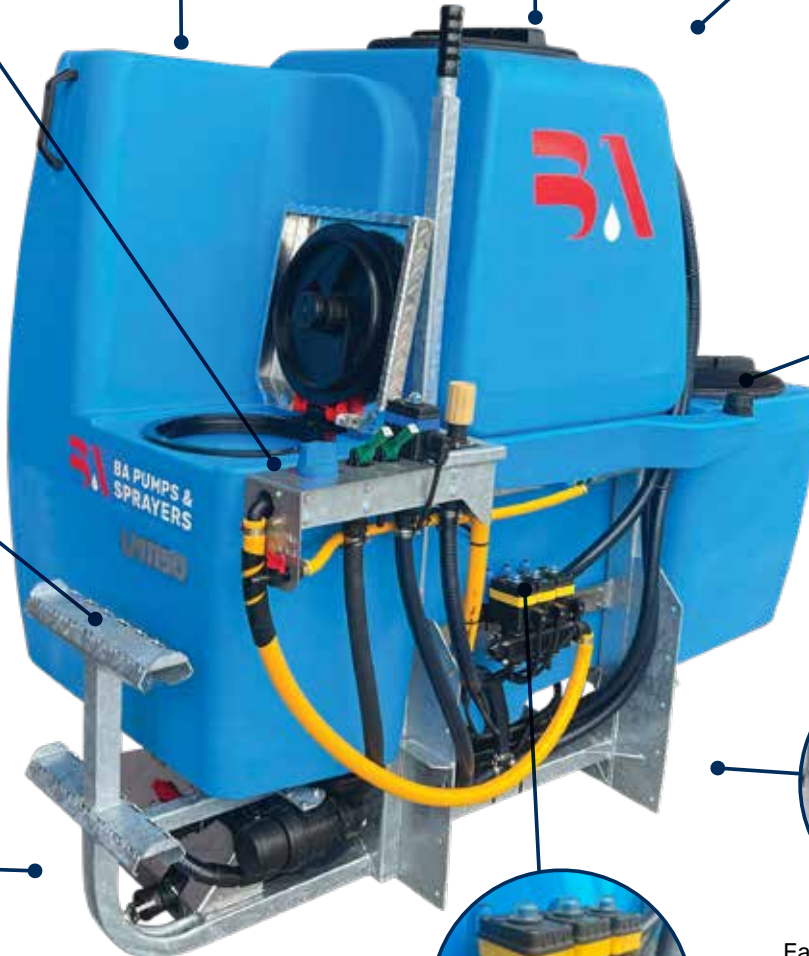

Operator safety: Easy access steps and grab handles for safe access to the top lid.

Flush Tank and Hand Wash Tank: Ensures pump and lines are clean and prioritises operator safety.

Bertolini 75 litre POLY Pumps: Standard for liquid fertiliser readiness.

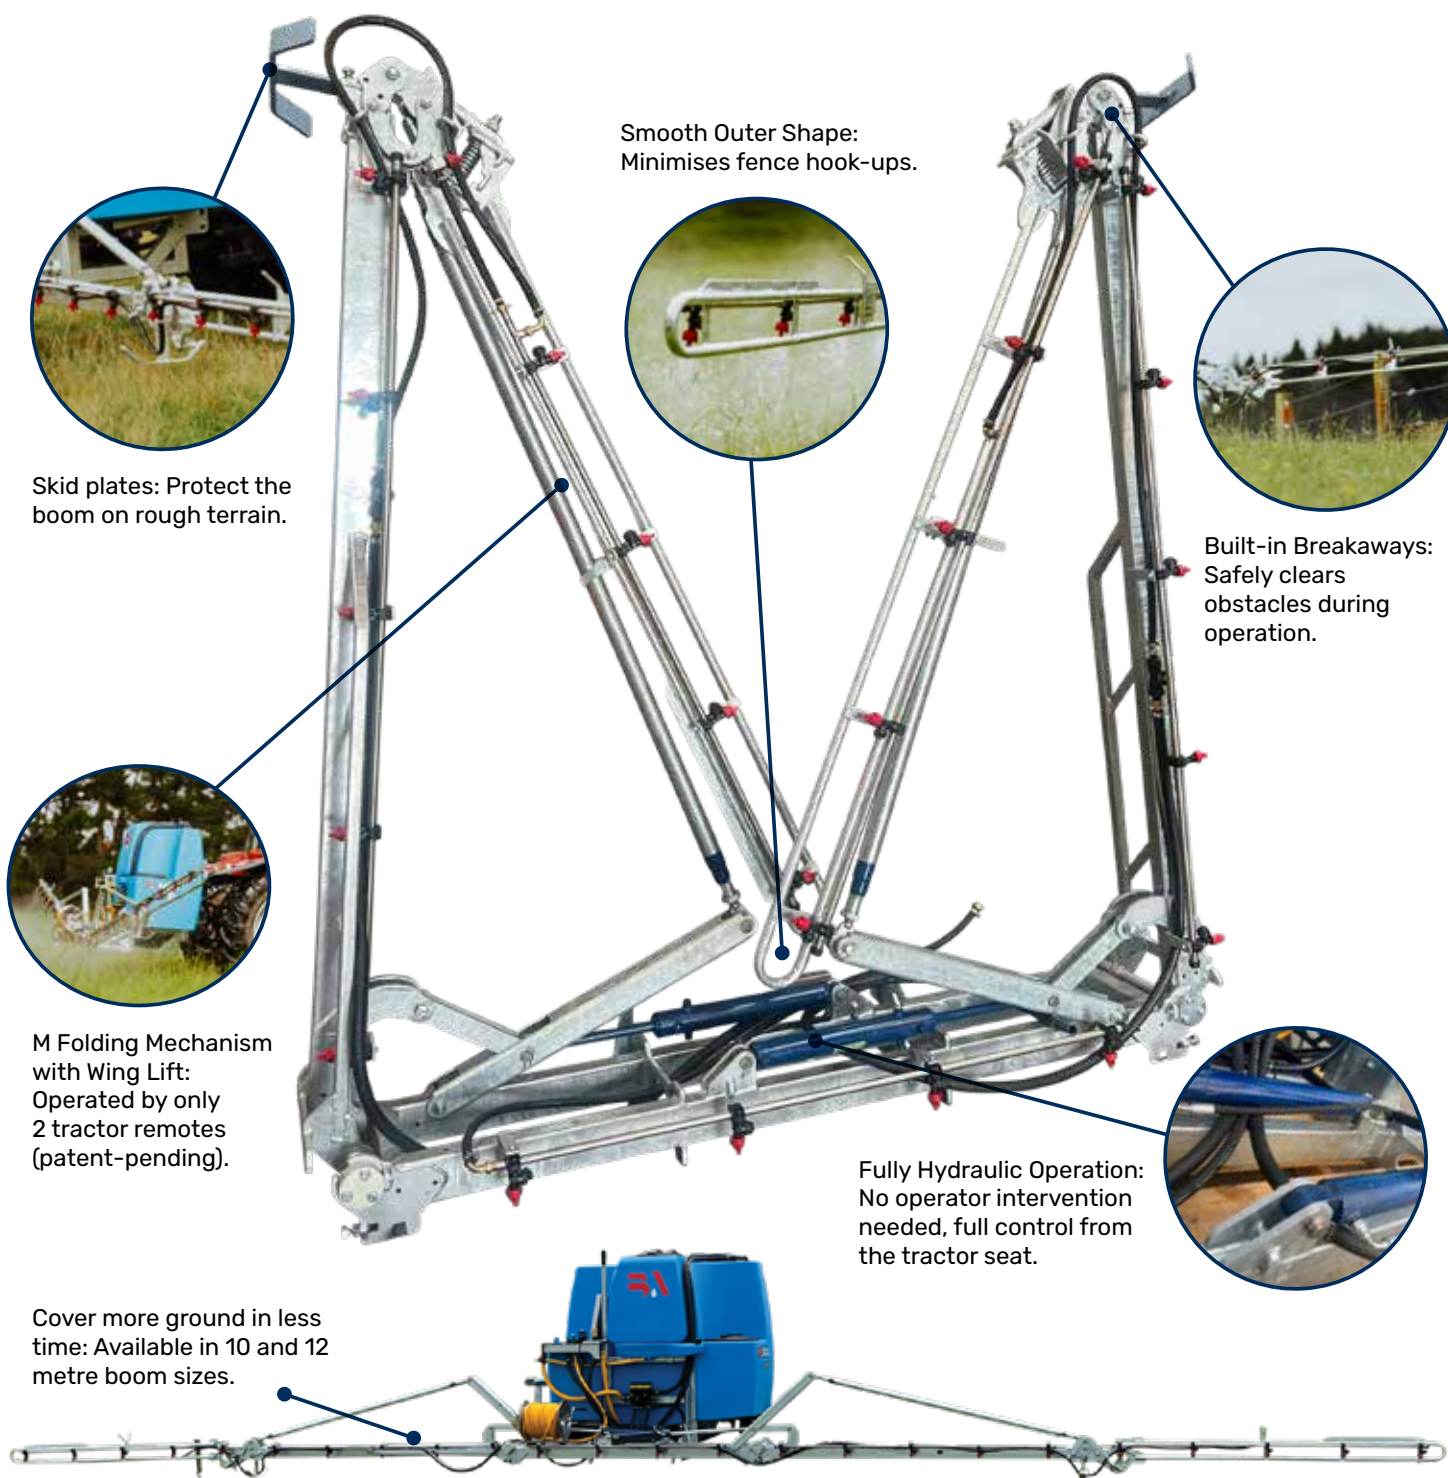

3-Section In-Cab Electric Control: Enables pressure adjustment and section control on the move.

Easy to move: Forklift pockets in the tank frame make it easy to move your sprayer where you need it.

THE M BOOM FEATURES:

The M Boom (patent pending) has been designed for superior operation and features full wing lift and fold using only 2 tractor remotes. This and the in-built self-returning breakways, smooth outer arms, and ground skids are all fitted as standard, making the M Boom easy to operate, on almost any terrain.
